

The E-commerce Store AI Kit — Descriptions, Emails & Ads That Sell

12 copy-paste AI prompts to write product descriptions, email flows, and ad copy for your online store — on a free ChatGPT or Claude account. Works for Shopify, WooCommerce, or any storefront.

How to use: replace [BRACKETS]. Keep claims truthful and compliant with ad platform rules. AI drafts; you approve and test.

Part 1 — Product Pages

1. High-converting product description

Act as a DTC copywriter. Product: "[NAME + key features + who it's for]". Write a product description: a benefit-led hook, a short story/feeling paragraph, scannable feature→benefit bullets, and a confidence line (guarantee/shipping). Persuasive, honest, no hype.

2. Bullet benefits (not just features)

Turn these features into benefit bullets a shopper cares about: "[LIST]". Format each as "Feature → what it means for you". Keep them punchy.

3. SEO meta title + description

Write an SEO meta title (≤60 chars) and meta description (≤155 chars) for this product: "[DETAILS]". Include the main keyword naturally and a reason to click.

Part 2 — Email Marketing

4. Welcome email

Write a welcome email for a new subscriber to "[STORE/NICHE]". Warm intro, what to expect, a first-purchase incentive, one clear CTA. ≤180 words.

5. Abandoned-cart sequence (3 emails)

Write a 3-email abandoned-cart sequence for "[PRODUCT]". Email 1 (reminder, 1h), Email 2 (handle objection + social proof, 24h), Email 3 (urgency/last chance, 48h). Friendly, not desperate.

6. Product-launch email

Write a launch email announcing "[NEW PRODUCT]" to my list. Build anticipation, 3 key benefits, a launch offer, clear CTA. ≤200 words.

7. Post-purchase / review request

Write a post-purchase email thanking the buyer of "[PRODUCT]", giving a quick usage tip, and asking for a review with a 1-click link. Warm and helpful.

Part 3 — Ads & Social

8. Facebook/Instagram ad copy (3 angles)

Write 3 ad variations for "[PRODUCT]": one problem-led, one benefit-led, one social-proof-led. Each: a hook, 2 lines of body, a CTA. Compliant, no exaggerated claims.

9. Google Shopping / search ad

Write 3 headlines (≤30 chars) and 2 descriptions (≤90 chars) for a search ad for "[PRODUCT]". Keyword-relevant, benefit-focused, clear CTA.

10. Organic social posts

Write 7 social posts to promote "[STORE]": product highlights, UGC prompt, behind-the-scenes, a question, and one soft sale. ≤200 chars each.

Part 4 — Optimize

11. A/B test ideas

Give me 8 things to A/B test on my product page / ads for "[PRODUCT]" to lift conversions, ranked by likely impact and ease. One line each.

12. Customer service responses

Write friendly templates for: order status, return/refund request, "where is my order", and a damaged-item complaint. On-brand for "[STORE]", each ≤60 words, solution-focused.
