

Etsy Seller's AI Toolkit — FREE Sample (3 of 11)

A free taste of the full toolkit. 3 copy-paste AI prompts to improve your Etsy listings today, on a free ChatGPT or Claude account. The full kit has 8 more (descriptions, pricing, buyer messages, promos).

■ Get all 11: <https://berkay85.gumroad.com>

How to use: replace [BRACKETS], paste into ChatGPT/Claude, tweak to your shop.

1. Keyword-rich listing title

Act as an Etsy SEO expert. My product: "[DESCRIBE]". Write 5 listing-title options under 140 characters. Front-load the most-searched keywords a buyer would type, stay readable (not keyword spam), avoid words Etsy ignores.

2. Generate 13 Etsy tags

Give me 13 Etsy tags (max 20 characters each) for this product: "[DESCRIBE]". Mix broad and long-tail buyer search phrases, include occasion/style/recipient variations, no single-word waste, no repeats of the title.

3. Friendly buyer message templates

Write short, warm Etsy message templates for: order thank-you, shipped + tracking, a delay apology, and a post-delivery review request. Each ≤60 words, on-brand for a small handmade shop.

Liked these? The full **Etsy Seller's AI Toolkit** has all 11 prompts — descriptions, keyword research, pricing, upsells, photo shot list, tough-review replies, a month of social captions, and a seasonal promo planner — for **\$9.99**, with lifetime updates and a 30-day money-back guarantee.
