

The Coach & Consultant's AI Kit — Sign Clients & Deliver Faster

12 copy-paste AI prompts to attract clients, run discovery calls, write proposals, and deliver coaching/consulting work — on a free ChatGPT or Claude account. No fancy funnels, no expensive software.

How to use: replace [BRACKETS]. AI drafts; your expertise and judgment make it valuable. Never present AI output as a substitute for real client care.

Part 1 — Attract

1. Clarify your offer in one sentence

Act as a positioning expert. I help "[WHO]" achieve "[OUTCOME]" through "[METHOD]". Write 5 one-sentence positioning statements that are specific, outcome-focused, and free of jargon.

2. Content that attracts your ideal client

Give me 10 short-post ideas for "[NICHE]" coaching that speak to my ideal client's pains and desires. For each: a hook line + the core point. No generic motivational fluff.

3. Lead magnet outline

Outline a simple, valuable free resource (checklist or mini-guide) that my ideal client "[DESCRIBE]" would happily trade their email for. Give a title, 5-7 sections, and the single transformation it promises.

Part 2 — Convert

4. Discovery-call question guide

Write a discovery-call framework for "[SERVICE]": opening, 8 questions that uncover the prospect's real problem and stakes, a transition to my offer, and a soft close. Consultative, not pushy.

5. Proposal that closes

Write a coaching/consulting proposal for [CLIENT] who wants "[OUTCOME]". Sections: their situation, the goal, my approach (phases), what's included, investment options, and next step. Confident, outcome-led.

6. Handle the "I need to think about it"

The prospect says they need to think about it: "[CONTEXT]". Write a respectful reply that surfaces the real objection (price, timing, trust) and offers a small next step, without pressure.

7. Pricing tiers

Help me design 3 pricing tiers for "[SERVICE]": a starter, a core, and a premium. For each: who it's for, what's included, and the transformation. Anchor the premium to make the core the obvious choice.

Part 3 — Deliver

8. Session plan

Create a structured plan for a [60-minute] session on "[TOPIC]" for a client at "[STAGE]": objective, opening, core exercise, key questions, and a homework/action assignment.

9. Turn a session into a recap + action plan

Here are my session notes: "[PASTE]". Write a warm client recap: what we covered, key insights, agreed actions (Owner — action — by when), and encouragement. Keep my voice.

10. Reframe a stuck client (coaching questions)

My client is stuck on "[SITUATION]". Give me 8 powerful coaching questions (not advice) that help them see it differently and find their own next step.

Part 4 — Retain & Grow

11. Check-in + accountability message

Write a brief mid-program check-in message for a client working toward "[GOAL]": acknowledge progress, gently hold accountability, ask one focusing question. Supportive, not nagging.

12. Referral & testimonial request

Write a natural message asking a happy client for a testimonial and a referral. Make it specific to their result "[RESULT]", low-pressure, and easy to say yes to.
